880051 (RU33)

Air cooled remote unit for LW 180kg blast chiller/freezer

Short Form Specification

Item No. _____

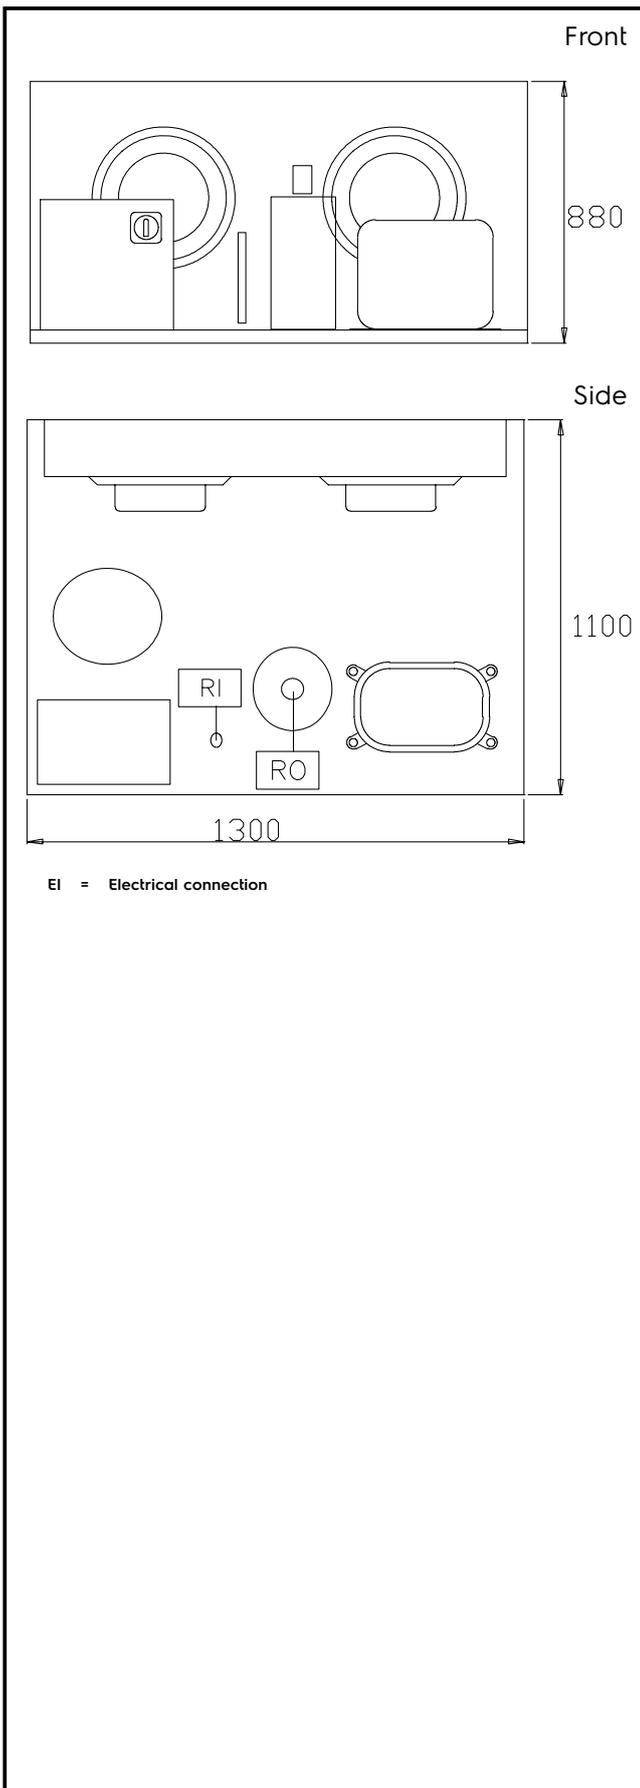

Air cooled remote unit for 180 kg blast chiller-freezer 20 x 2 / 1GN. The cooling unit can be positioned up to 15 meters away from the chiller, no intermediate standard piping is included. The unit is to be placed on a robust support, strong enough to carry the weight without bending or vibration. Installation on viscous damper is recommended. The room where the unit is placed must be adequately ventilated, with 1000-1500 m³ / h per kW generator power.

Main Features

The cooling unit is supplied with the following components:

- Refrigerant R404A
- Filter / dryer
- Pressure switch
- Condenser with fan
- Condenser switch
- Liquid tank
- Liquid sight glass
- Fluid Damper
- Liquid solenoid valve (supplied separately, unassembled)
- Safety valve
- Fan
- Electric scheme
- Aggregate frame of stainless steel pipe

APPROVAL: _____

Electric

Supply voltage:

880051 (RU33)

400 V/3N ph/50 Hz

Key Information:

External dimensions, Height: 1060 mm

External dimensions, Width: 1290 mm

External dimensions, Depth: 1000 mm

Net weight: 250 kg

EI = Electrical connection
