Internal/External Corner Unit in Stainless Steel
Top - 45°

330123 (ZLC45IE)

Internal/external corner unit,
stainless steel top, 45
degree

Short Form Specification

Item No. _____

20/10 top, external panelling, base and feet in 304 AISI stainless steel.
2" round feet, adjustable, 200mm in height.

TOP: Ambient Top - mm50 in thickness - with rounded edges.

This unit is used to change the direction of the servery line; it can be installed to form an INTERNAL (with the SHORTEST side towards the customer) or an EXTERNAL angle (with the LONGEST side towards the customer).

Main Features

- Corner units are used to change the direction of the servery line to suit service needs and the configuration of the room.
- Available in two versions to form either an internal angle or an external angle.
- Internal angle corner unit has its shortest side towards the customers and is panelled on the customer side only and is left open on the operator's side.
- External angle corner unit has its longest side towards the customers and is panelled on both sides.
- Units can be installed on a masonry base.
- Complies with main international certification bodies and is CE marked.
- Wide range of accessories available to make the Self Service flexible and suitable for all servery requirements.

Construction

- Entirely constructed in stainless steel.
- Adjustable stainless steel feet (up to 200 mm).
